Keeping with the essentials, the latest Boy de Chanel makeup for men collection comprises a foundation, lip balm and eyebrow pencil to focus on texture, natural beauty and wearing durability. The hydrating foundation offers SPF 25 sans free radicals. The lip balm is fine and ultra-light and moisturises for eight hours with super ingredients like jojoba oil and shea butter. Finally, the eyebrow pencil has a spiral brush that grooms and adjusts all in one go, not to mention – it's waterproof for extra-long wear.
