RAZZLE DAZZLE

German jeweller Wellendorff creates the world's first spinning solitaire ring, called Love Is, for its 125th anniversary. Three sections of the band, each facing a slightly different angle, are encrusted with sparkling accent diamonds, while the middle revolving ring is adorned with a heart in “cold enamel”, a Wellendorff technique. The crowning jewel, a brilliant 1.25ct diamond, is suspended in an open setting that reveals the culet from four sides. The limited-edition Love Is ring is available in three designs.
